VARSHASRI K

Frontend Developer

Roll No: 23ISR060

Kongu Engineering College, Perundurai | M.Sc. Software Systems (5-Year Integrated, 2023-2028)

Proactive and detail-oriented M.Sc. Software Systems student at Kongu Engineering College with comprehensive hands-on experience in modern frontend engineering and web development. Passionate about architecting high-performance, responsive, and user-centric web applications while applying structured computing practices to solve real-world problems.

TECHNICAL SKILLS

Frontend Engineering
HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap 5, Responsive Design, Flexbox/Grid

Programming Languages
C, C++, Java, JavaScript, Python, PHP, C#

Backend & Databases
Node.js, Express.js, MongoDB, MySQL, REST APIs

Testing & Developer Tools
Selenium, API Testing, Git, GitHub, Netlify, VS Code

EDUCATION

M.Sc. Software Systems (Integrated)
Kongu Engineering College, Perundurai
Sem 6 CGPA: 6.80 | 2023 - 2028

HSC (Class XII) — 75.0%
Christhu Jyothi Mat. Hr. Sec. School, Erode
Completed: 2023 | Science & Math

SSLC (Class X) — Pass
Christhu Jyothi Mat. Hr. Sec. School, Erode
Completed: 2021 | State Board

CERTIFICATIONS

GOLD **Testing Tools & API Testing (93%)**
Selenium with Java & Python | NASSCOM & MeitY (FutureSkills Prime)

ELITE **NPTEL: Industry 4.0 & IIoT (68%)**
IIT Kharagpur (12-Week Rigorous Course)

Data Processing & Visualisation
Level 2 AI Ready (Accenture Credential)

Diploma in C & C++ (DCP) — Grade A
CSC Computer Software College

AREA OF INTEREST

Web Development

CORE COMPETENCIES

Leadership | Team Collaboration | Self-Learning | Communication

LANGUAGES

Tamil, English

INTERNSHIP EXPERIENCE

Web Development Intern — Tamizhan Skills — 01 Mar 2026 - 31 Mar 2026
Program: RISE Internship Program
- Designed and built responsive web layouts, interactive components, and optimized styling for modern user interfaces.
- Enhanced cross-browser compatibility and mobile responsiveness using modular CSS and modern frontend frameworks.
- Participated in code reviews, UI refactoring, and sprint deliverables under the RISE training curriculum.

Web Development & Designing Intern — Oasis Infobyte — 05 Dec 2025 - 15 Jan 2026
Program: AICTE OIB-SIP Internship
- Engineered dynamic, mobile-first web pages adhering strictly to AICTE internship milestones and design guidelines.
- Constructed intuitive user interfaces with client-side form validations, dynamic states, and modern UI/UX patterns.
- Awarded AICTE OIB-SIP certificate recognizing high performance in web designing tasks.

Web Development Intern — CODSOFT — 01 Jul 2025 - 31 Jul 2025
Program: Virtual Internship
- Constructed interactive web applications and portfolio modules utilizing HTML5, CSS3, and modern JavaScript.
- Managed version control with Git, collaborated on branch merging, and deployed production builds to Netlify and GitHub.
- Practiced clean coding conventions, responsive flexbox/grid architectures, and DOM manipulation.

Full Stack Development Intern — CubeAI Solutions — Internship
Domain: Full Stack Web Engineering
- Assisted in building end-to-end web features utilizing modern JavaScript frameworks and RESTful web services.
- Collaborated on backend API routing, database schema structuring, and connecting client-side interfaces to REST services.
- Debugged frontend UI inconsistencies and ensured smooth data transmission between client and server.

KEY PROJECTS

Student Result Management System | HTML5, CSS3, JavaScript — GitHub Code
- Interactive web portal for student examination mark entry, automated GPA computation, and real-time result publishing.
- Engineered responsive tabbed navigation, live search filters, client-side validation, and persistent student records.

Sabrimala Finance – Financial Management Web App | Web Technologies, JS
- End-to-end financial platform engineered to manage loan distributions, calculate monthly EMI repayment schedules, and track ledgers.
- Implemented automated calculations, secure customer transaction logging, and interactive account statement visualization.

AgriProcess+ (Agriculture & FoodTech Platform) | HTML5, CSS3, Bootstrap 5 — GitHub Code
- Agri-commerce web solution connecting rural agricultural producers directly with wholesale and retail buyers to eliminate intermediaries.
- Designed transparent price discovery tables, yield category listings, and mobile-friendly responsive layouts with Bootstrap 5.

ACHIEVEMENTS & CO-CURRICULAR

★ **1st Prize in Technical Paper Presentation:** Secured top position and won a cash prize of **₹3,000** at CIT College paper presentation contest.

★ **1st Place in Department-Level Paper Presentation:** Recognized for best technical paper and presentation among departmental participants at Kongu Engineering College.
