Career Objective & Summary: Proactive and detail-oriented M.Sc. Software Systems student at Kongu Engineering College with hands-on experience in full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proven track record through technical paper presentations, hackathons, and industry internships. Seeking to contribute strong technical problem-solving capabilities, modern web development skills, and continuous learning to an impactful software engineering role.

EDUCATION

Degree / Certificate	Institution	Year	Score / CGPA
M.Sc. Software Systems (5-Year Integrated)	Kongu Engineering College, Perundurai	2023 – 2028	**CGPA: 6.80** (Sem 6)
HSC (Class XII) — State Board	Christhu Jyothi Mat. Hr. Sec. School, Erode	2023	**75.0%**
SSLC (Class X) — State Board	Christhu Jyothi Mat. Hr. Sec. School, Erode	2021	**First Class / Pass**

TECHNICAL SKILLS

Programming Languages: C, C++, Java, JavaScript (ES6+), Python, PHP, C#

Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, Bootstrap, RESTful APIs

Databases & Cloud: MongoDB, MySQL, Firebase, AWS (Basics), Docker (Basics), CI/CD (Basics)

Tools & Platforms: Git, GitHub, Netlify, VS Code, Canva

Coursework: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Web Technologies

INTERNSHIP EXPERIENCE

Web Development Intern — Tamizhan Skills

01 March 2026 – 31 March 2026

Program: RISE Internship Program

- Designed and implemented responsive web layouts, interactive components, and optimized styling for modern user interfaces.
- Enhanced cross-browser compatibility and mobile responsiveness using modular CSS and modern frontend frameworks.
- Participated in code reviews, code refactoring, and sprint deliverables under the RISE training curriculum.

Web Development and Designing Intern — Oasis Infobyte

05 December 2025 – 15 January 2026

Program: AICTE OIB-SIP Internship

- Engineered several responsive web applications adhering strictly to AICTE project specifications and standards.
- Constructed user-friendly landing pages, interactive forms with client-side input validations, and dynamic DOM manipulation.
- Received AICTE OIB-SIP internship certificate recognizing high performance in web designing tasks.

Web Development Intern — CODSOFT

01 July 2025 – 31 July 2025

Program: Virtual Internship

- Developed functional frontend web applications including portfolio websites and utility calculators using HTML5, CSS3, and JavaScript.
- Practiced collaborative version control workflows using Git and deployed functional websites through GitHub Pages and Netlify.
- Deepened understanding of UI design principles, responsive flexbox/grid systems, and clean coding conventions.

Full Stack Development Intern — CubeAI Solutions

Internship

Domain: Full Stack Web Engineering (MERN)

- Gained industry exposure working on full stack web applications utilizing MongoDB, Express.js, React.js, and Node.js.
- Collaborated on backend API routing, database schema structuring, and connecting client-side interfaces to REST services.
- Debugged frontend UI inconsistencies and ensured smooth data transmission between client and server.

KEY PROJECTS

Student Result Management System

Tech: MySQL, PHP, HTML5, CSS3, JavaScript

- Architected and developed a web-based portal to automate student grading, calculation of semester marks, and report generation.
- Implemented secure administrator authentication, student roll-number lookup, and relational database schema in MySQL.
- Significantly reduced manual report calculation errors and accelerated semester result publication time.

Sabrimala Finance – Financial Management Web Application

Tech: React.js, Node.js, Express.js, MongoDB

- Built an end-to-end full-stack web application for financial auditing, loan tracking, and EMI schedule management.
- Developed interactive dashboards featuring real-time transaction ledgers, payment date alerts, and summary charts.
- Integrated secure REST APIs with MongoDB to guarantee reliable record storage and rapid query retrieval.

Agriculture, FoodTech & Rural Development Platform

Tech: Web Technologies, SQL, UI/UX

- Designed a technology platform bridging rural farming communities directly with wholesale and retail agricultural buyers.
- Streamlined market pricing transparency, enabled real-time produce listings, and eliminated unnecessary intermediaries.
- Focused on accessibility for rural users with clean, lightweight interfaces and intuitive navigation.

ACHIEVEMENTS & AWARDS

- **1st Prize in Technical Paper Presentation:** Secured top position and won a cash prize of **₹3,000** at CIT College paper presentation contest.
- **1st Place in Department-Level Paper Presentation:** Recognized for best technical paper and presentation among departmental participants at Kongu Engineering College.

CERTIFICATIONS

Full Stack Web Development (MERN Stack) | C & C++ Programming Certification | Web Development Foundations | Relational Database Management with MySQL

INTERPERSONAL SKILLS & LANGUAGES

Soft Skills: Leadership, Team Collaboration, Analytical Problem Solving, Self-Directed Learning, Creativity

Languages Known: **English:** Professional Working Proficiency | **Tamil:** Native / Fluent
